Philip Rieff (1922–2006) was a preeminent American social and cultural theorist. The original essays in *The Anthem Companion to Philip Rieff* offer an important new assessment of the major works of Philip Rieff by leading writers in the fields of social and cultural theory. These essays are the first to assess Rieff's influence and significance as a master theorist and teacher, drawing on the contributors' long interest in the broad scope of his work, from *Freud: The Mind of the Moralists* to *The Triumph of the Mind of the Moralists* to *The Triumph of the Therapeutic* to his posthumous work, *Sacred Order/Social Order*.

Anthem Companions to Sociology offer authoritative and comprehensive assessments of major figures in the development of sociology from the last two centuries. Covering the major advancements in sociological thought, these companions offer critical evaluations of key figures in the American and European sociological tradition, and will provide students and scholars with an in-depth assessment of the makers of sociology and chart their relevance to modern society.
