Description

A fantastic compilation of mathematical puzzles featuring every question set from 1959–1975, along with comprehensive solutions and multiple answers where applicable.

The famed International Mathematical Olympiad has been challenging students worldwide for over 40 years. The first competition was held in Romania in 1959 with seven countries participating. It has since expanded to attract competitors from over 80 countries, representing all five continents. This first volume features every question set from 1959-1975, along with comprehensive solutions and multiple answers where applicable. A fantastic selection of mathematical puzzles, this fully updated three volume series will be of interest to serious mathematicians and enthusiasts alike. István Reiman's compilation of logic puzzles and questions will tease the intellect of all those with a mathematical mind.

Readership: A great resource for schools and maths clubs, this title is the ultimate test for mathematicians everywhere.
