Exclusive: WORLD

First comprehensive overview of the critical edition of the Mahābhārata.

“Philology and Criticism, published on the fiftieth anniversary of the critical edition’s completion, has been much needed in Mahābhārata studies for the past half-century. Adluri and Bagchee describe how the critical edition’s evidence does not support theories of a prior oral epic or ‘layering’ in the text. Brilliant and persuasive!” –Bruce M. Sullivan, Professor of Comparative Study of Religions, Northern Arizona University, USA

“Philology and Criticism is an essential reference work, the first to explain what the critical edition is. Adluri and Bagchee’s clarification of the critical edition’s overarching project is brilliant and makes a lasting contribution to the field.” –Alf Hiltebeitel, Professor of Religion, History and Human Sciences, George Washington University, USA

The first book to present a comprehensive review of the Mahābhārata Critical Edition, with overviews of stemmata (textual trees), how the logic of the stemmata determined editorial choices, and an in-depth analysis of the edition’s strengths and drawbacks. An invaluable asset to any scholar working contemplating serious work on the Mahābhārata.

Contents

Preface; Prologue; Introduction; Chapter One Arguments for a Hyperarchetypal Inference; Chapter Two Reconstructing the Source of Contamination; Chapter Three Confusions regarding Classification; Conclusion; Appendices

About the Author(s) / Editor(s)
